T. G. BANNING

To Our Customers:

We wish to present our new 1939 folder of seeds, plants, and nursery stock. At this time we want to thank you for your orders which we have received in the past, and trust that our products have been of such merit that we may continue receiving your patronage.

May we say that we are continually striving to better our products and are always eager to pass on to our customers any new growing material which will benefit you.

We have been engaged in this business for over twenty-five years and have witnessed an increase in satisfied customers from only a few to many thousand. We have been able to do this only by giving true-to-name varieties of seeds, plants, and nursery stock. We feel that good products at reasonable prices will merit your confidence. On such a basis we have built up our business, as our increasing mailing list clearly shows.

J. G. BANNING

We endeavor to fill all orders promptly and correctly, but sometimes errors occur. Please feel free to call any error to our attention and we shall be more than glad to correct it.

We cordially invite you to visit our grounds and make your personal selections from our growing stock. Space prevents us from listing many things; however, we shall be glad to quote prices on any item in which you are interested.

We take this opportunity to extend to you our greetings and best wishes for 1939.

Very truly yours, T. G. Banning, J. G. Banning

BANNING'S SEED AND NURSERY HOUSE

914 MEADE --- PHONE 141 --- BROOKFIELD, MO.

Vegetable Plants

To Our Customers:

For many years, we offered high grade hot bed seedling plants. Today every plant except sweet potatoes that is purchased from us, is at least once or twice transplanted. This makes a sturdier plant with a heavy root system and better top. We cannot impress upon you the importance of this, as better crop yields result from these high grade plants. We expect to grow 1,000,000 plants this year.

For variety description, see Seed List.

IMPORTANT ANNOUNCEMENT TO GARDEN MAKERS

In 1938 as an accommodation to our customers, who were unable to visit our grounds, we placed our plants in stores in several towns and this year, the following stores expect to handle our plants locally. Other locations may be added.

The Home Store, H. C. Carothers, Laclede, Mo.

King & Bargar Grocery, Meadville, Mo.

Stephens Grocery, Linneus, Mo.

L. M. Elliott Grocery, Purdin, Mo.

A. & P. Store, Marceline, Mo.

J. C. Lawson Grocery, Bucklin, Mo.

C. W. Henderson Grocery, Ethel, Mo.

Neets Store, Ethel, Mo.

The Turner Store, Goldsberry, Mo.

Wallace Produce, Winnigan, Mo.

Coram Produce, New Boston, Mo.

L. D. Harper, Shelby, Mo.

Rauer Store, North Salem, Mo.

TOMATO

For description of varieties, see seed list.

Extra early—Earliana, Pritchard, Break O'Day.

Second early—Rutgers, Marglobe, Golden Queen.

Main Crop—Ponderosa, Beef Steak, Stone, Oxheart, Golden Ponderosa.

All tomato plants, doz. 15c; 2 doz. 25c; 100 for 95c.

Potted Plants—All varieties, 45c per doz. By mail 60c per doz.

CABBAGE

All our cabbage plants are grown from Wilt Resistant strains of seed. They are all sturdy, frame grown and well hardened to outdoor weather conditions.

Jersey Wakefield, Copenhagen Market, Early All-head, All Seasons and Wisconsin Hollander, Doz., 10c; 3 doz. 25c; 100 for 65c.

CAULIFLOWER

Early Chicago Snowball, planted in June should head in September; doz. 10c.

SWEET POTATOES

We grow these plants from certified seed. Seed sweet potatoes are bedded deep enough to have lots of roots when ready for transplanting which helps to insure a crop of fine tubers.

NANCY HALL—A fine yellow vineless variety and a good yielder.

PORTO RICO—Short, thick potatoes with orange skin and golden yellow flesh. Fine quality.

50 for 20c, 100 for 35c, 300 for \$1.00.

PEPPERS

Sweet peppers grow in popularity each year for baking, salads, and pickling.

Ruby King, California Wonder, Harris' Early Giant, Neopolitan, Pimentos and hot peppers.

12 for 15c, 2 doz. 25c, 100 for 95c.

SAGE

Mammoth leaved, transplanted, dozen 25c.

EGG PLANT

BLACK BEAUTY—Early, large and fine quality 12 for 15c.

CELERY

Home grown celery is a luxury that is well worth the trouble of growing in every home garden.

A few transplanted plants take up little space, are not hard to grow and give large dividends for the little trouble in their care. Try this delicious vegetable this year.

Golden Self Blanching and Easy Blanching for fall, and Giant Pascal for winter.

Plants ready early in May.

Doz. 15c, 3 doz. 25c, 100 for 65c.

FRUIT TREES

Apple, Cherry, Pear, Plum and Peach Trees. Select heavy rooted, well branched two year trees. All four to six feet high, 9-16 or 11-16 up, according to variety. Your choice assorted. Each 59c, 3 for \$1.65, 6 for \$3.19.

SPECIAL NOTICE

Our business is subject to the 2% Missouri state sales tax. Please add this amount to your order.

Prices quoted are subject to change without notice, and cancel any previous price list.

On proper proof, we guarantee to replace or refund the amount paid on any seeds, nursery stock, or plants which are not true to description under which they are sold. However in no case shall we be liable for any sum greater than the original purchase price of such seeds, nursery stock or plants.

NURSERY STOCK

We offer a complete line of true-to-name stock. We do not offer cheap undeveloped trees or shrubs. Our stock will make excellent growth the first year. Our stock is inspected each year by the Missouri State Department of Agriculture.

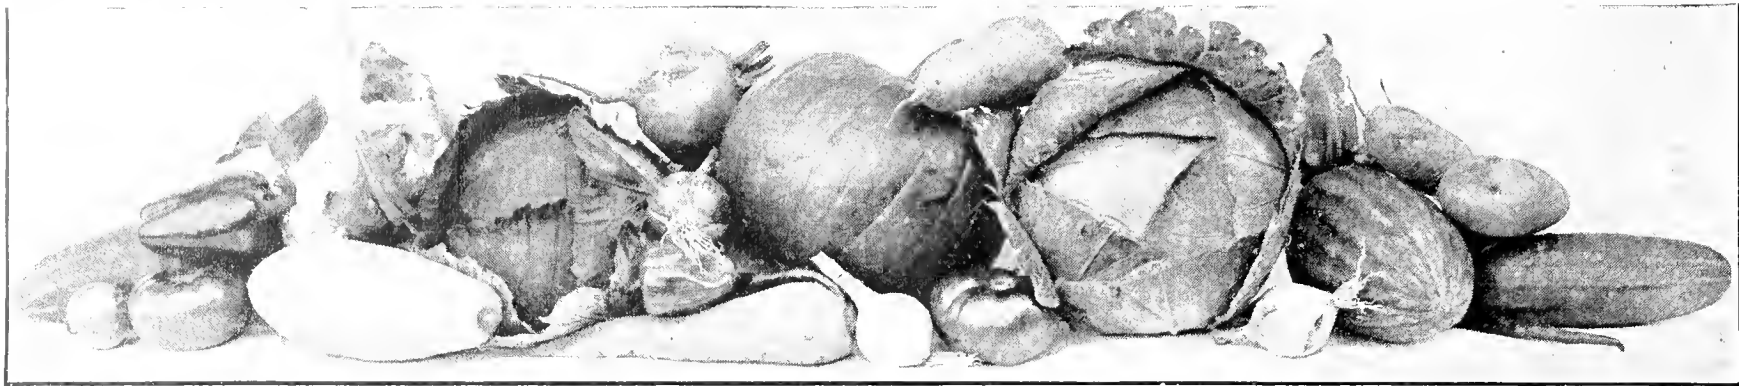

We guarantee satisfaction upon arrival of your order. If you should receive any unsatisfactory stock, hold it subject to our disposal and we will replace it free. All claims must be made within ten days after arrival of order.

TOMATO PLANTS Take Home a Box

Grown in small containers of 14 plants each for your convenience. Take plants home in the container and if weather is inclement, set them when convenient. Price for 14 plants 25c.

VEGETABLE SEED, tested for Purity and Growth

Our seed is all contracted for each preceding year from growers all over the country. We buy peas in one locality, beans in another, etc., not because of cheap prices, but because through experience we know that certain localities in the country grow a better tomato, bean, etc., than others. We thoroughly test every variety each year before offering it to our customers. We know it is true to name and will grow.

All seed in packages under our name in convenient sizes. Insist on Banning's Quality Seed. All Seed Postpaid.

SNAP BEANS

¼ lb. 10c, ½ lb. 15c, 1 lb. 24c, 2 lb. 40c.

Bush Varieties

BURPEE'S STRINGLESS GREEN POD—Pods meaty, stringless and the very finest quality.
GIANT STRINGLESS GREEN POD—Pods nearly round, brittle and stringless.
BOUNTIFUL—Stringless bean, heavy yielder. The best flavor of any variety.
PINTO—Variety grown for the richly flavored dry beans.
RED KIDNEY—Vigorous and hardy. Planted for its red beans.
GOLDEN WAX—Early, stringless wax podded variety of high quality.
PENCIL PODDED BLACK WAX—Vigorous bush with long, slender, round pods.
DWARF HORTICULTURAL—Pods thick, stringless with splashes of red on a yellow background.
NAVY BEANS—Standard variety for planting for use as a dry bean.

Pole Varieties

KENTUCKY WONDER—Climbs well and yields a large crop of fine beans.
MISSOURI WONDER—One of the best to plant for hulling and snap beans.
KING'S MAMMOTH HORTICULTURAL—Large seeded climber used for snapping or baking.
RED SPECKLED CUT SHORT (or corn hill)—Best variety for planting with corn.
KENTUCKY WONDER WAX—Early wax podded pole bean almost stringless.
DUTCH CASE KNIFE—Vigorous climbing kidney shaped, white bean.

LIMA OR BUTTER BEANS

¼ lb. 10c, ½ lb. 15c, 1 lb. 25c, 2 lb. 45c.

Bush Varieties

BURPEE'S FORDHOOK—Best and most productive large bush limas.
HENDERSON'S BABY LIMA—Productive bush variety of small butter beans.
JACKSON WONDER—Calico colored bush limas. Very prolific.

Pole Varieties

KING OF THE GARDEN—Strong grower with pods filled with four to five large beans.

CAROLINA SMALL LIMA—Vines vigorous, bearing a heavy crop of baby butter beans.

MAMMOTH FLORIDA LIMA—Large pole butter bean with speckled red and white seed.

BEETS AND SWISS CHARD

Pkt. 5c, oz. 12c, ¼ lb. 40c, ½ lb. 65c.

DETROIT DARK RED—Medium early, dark red. Beets are round, and quality is the best.

EGYPTIAN DARK RED—Dark red, early and an excellent beet in every way.

SWISS CHARD, Lucullus—Grown for the leaves and stalks which are used for greens.

CARROT

Pkt. 5c, oz. 12c, ¼ lb. 45c.

CHANTENAY RED CORELESS—Uniformly smooth roots six inches long, tender and almost coreless.

DANVERS—The smooth roots are deep orange, flesh is sweet and tender.

CAULIFLOWER

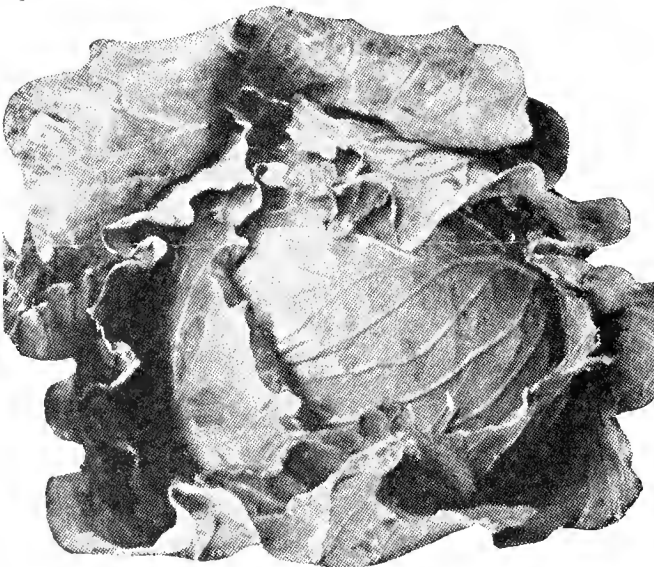

CHICAGO SNOWBALL—Good for early or late planting. Transplanted in June will head in September. Pkt. 5c.

CABBAGE

Our cabbage seeds are all wilt resistant strains that have been developed to produce crops in wilt infected gardens, but do equally as well in disease free soil. This seed is expensive and will not be found in many seed stores.

Any variety pkt. 5c, oz. 40c.

EARLY JERSEY WAKEFIELD—Solid conical shaped heads. Early and hard heading.

COPENHAGEN MARKET (Marion Market)—Fine early cabbage. Round heads, large and solid.

ALL HEAD EARLY—Second early with large flattened heads. A fine Early Flat Dutch type.

ALL SEASONS—Early summer variety that is suited to early and late growing season.

WISCONSIN HOLLANDER—Winter variety. Heads round, solid, fine grained and fine flavored.

RED CABBAGE—Planted for pickles on account of its red colored heads.

CELERY

Pkt. 5c, ½ oz. 25c.

GOLDEN SELF BLANCHING—Best of the early fall varieties. Dwarf compact habit with thick, solid ribbed stalks that blanch easily.

EASY BLANCHING—Blanches easily in the fall but if put away green it is the longest keeping variety known.

GIANT PASCAL—A green leaved variety that is excellent for late fall and winter. Finest flavored of all celeries.

SWEET CORN

All varieties except noted otherwise: ¼ lb. 10c, ½ lb. 15c, 1 lb. 25c, 2 lb. 40c, 5 lb. 90c.

IMPROVED GOLDEN BANTAM—Extra early ears with golden yellow kernels of the finest quality.

LEONARD'S EARLY—Large beautiful white ears with fine flavor. A favorite variety with our customers.

EARLY EVERGREEN—Special Strain. Ears eight inches long. Kernels are sweet and tender.

STOWELL'S EVERGREEN—Main crop variety producing large ears of sugary sweetness.

COUNTRY GENTLEMEN—No sweet corn compares with it for sweetness. It is par excellent where quality is desired.

HOWLING MOB—Fine second early, large eared, fine cropper and excellent quality.

HYBRID SWEET CORN—New productive and drought resisting sweet corn. Roots deeply which protects growing plants from wind, heat and drought. Excels in yield over standard strains of seed.

TENDERGOLD—Four days earlier than Golden Bantam and generally twice as productive. The 8 inch, 12 rowed ears command a premium for their quality. Pkt. 10c, ½ lb. 20c, 1 lb. 35c.

GOLDEN CROSS—Bright yellow 8 inch ears. Quality fully equal to Golden Bantam, two or three times as productive and only six days later. Pkt. 10c, ½ lb. 20c, 1 lb. 35c.

POP CORN

Pkt. 10c, ½ lb. 12c, 1 lb. 20c.

JAPANESE HULLESS—Small white grains that pop large and tender.

DYNAMITE—Large yellow kernels that pop to large size.

CUCUMBER

Pkt. 5c, oz. 12c, ¼ lb. 40c, ½ lb. 70c.

EARLY FORTUNE—Finest strain of White Spine type. Fruits rich dark green, thick flesh is fine, white, crisp with very few seeds.

CHICAGO PICKLE—Small fruits grown for pickling.

IMPROVED LONG GREEN—Fruits long green, fine for slicing.

LETTUCE

Pkt. 5c, oz. 12c, ¼ lb. 45c.

BLACK SEEDED SIMPSON—Loose leaved crisp variety of quick growth and tenderness.

PRIZE HEAD—Crisp, tender leaves, shaded a reddish brown.

HANSON—A quick growing lettuce with curly green leaves. Stands hot weather well.

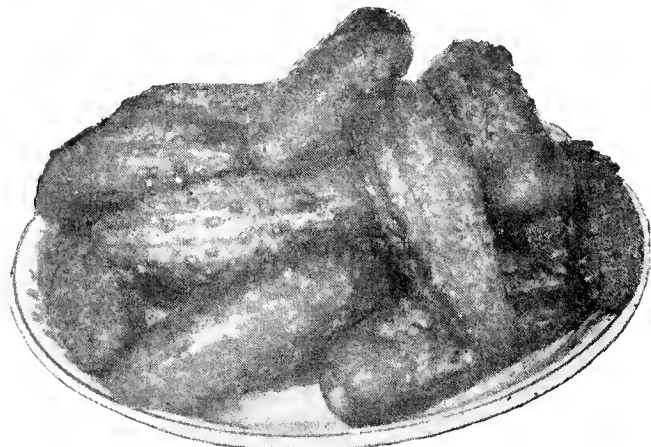

GRAND RAPIDS—Large attractive curly leaves.

BIG BOSTON—Early heading variety which forms a head with beautiful blanched heart.

LEONARD'S HEAD—Cabbage headed variety with small leaves, tender and crisp.

EGG PLANT

BLACK BEAUTY—Earliest and best of the large fruited varieties. The rich purplish black fruits are tender and tasty. Pkt. 5c, oz. 40c.

VEGETABLE SEED, tested for Purity and Growth—Continued

MELON SEED

Our melon seeds are taken from fruits that are grown only for seed purposes. All varieties are true to type and quality and will produce high quality melons.

MUSKMELONS

Pkt. 5c, oz. 12c, $\frac{1}{4}$ lb. 40c, $\frac{1}{2}$ lb. 70c.

ROCKYFORD—Netted green fleshed melons that are sweet to the rind.

HOODOO OR HEARTS OF GOLD—Medium sized, orange fleshed fruits. Flesh thick and delicious.
